

# Fuji Fiesta- Apple Salsa

You will need a food processor or blender.

## **Ingredients:**

4 Fuji Apples- Peeled, cored and roughly chopped

\*1 jalapeño (seed half for a medium spicy salsa...or use it all for HOT HOT HOT)

1/3 cup tomatoes

1/3 cup sweet bell peppers

1/4 cup red onion

1/4 cup cilantro

Juice of 1 lime

2 tsp. sugar or honey

Salt and pepper to taste

\*Be sure to wash hands after handling\*

## **Let's make it!**

Place all ingredients in your food processor and blend to desired consistency.

Taste!

We added a bit more onion and cilantro and pepper to ours.

Place in an airtight container and let the flavors marry together for a bit. This can be served chilled or at room temperature.

The versatility of this recipe is endless. It can be served with tortilla chips, or fresh sliced vegetables as an alternative to dip.

Our taste testers recommended pairing it with fresh made fish tacos. Fabulous!

Enjoy.
